Sodor, Kishoreganj - 2300, Dhaka, Bangladesh

OBJECTIVE

My objective in life is to excel in academics and professional endeavors, particularly by building a rewarding career in software development. I aim to master programming languages like C, C++, Java, and Python while enhancing my problem-solving skills through competitive programming. In addition, I strive to improve my English proficiency for better communication and global opportunities. With a commitment to lifelong learning, I aspire to contribute to impactful projects that solve real-world problems and create positive change in society.
